

NorthStar Regulator Sprayer Accessory

This NorthStar® Sprayer Regulator lets you precisely control pressure from 0 to 6.9 BAR (pump performance permitting) when broadcast or spot spraying. A 51mm pressure gauge makes it easy to monitor system pressure. Compatible with most NorthStar ATV and Tow Behind Sprayers.

Model Number:

NTE#: 2681032

Key Features:

- Precisely controls pressure from 0 to 6.9 BAR (0 to 100 PSI) when broadcast or spot spraying
- 51mm (2in.) pressure gauge makes it easy to monitor system pressure
- Three working ports, 19mm (3/4in.) quick-connect and two 6.4mm (1/4in.) FNPT for use with spray guns, broadcast booms and pressure gauge
- 19mm (3/4in.) quick-connect bypass port returns fluid to tank for chemical agitation
- Compatible with Roundup® agricultural brand herbicide
- Designed to work with virtually all NorthStar Standard, Deluxe, and Towable Sprayers
